## PROFILE

Dynamic Senior .NET Developer with over 25 years of experience in delivering scalable, enterprise-grade web and mobile applications. Expertise in .NET Core, Blazor, and Azure architectures, along with a strong proficiency in Angular and React, enables the creation of innovative solutions that meet complex business needs. A passion for modernizing legacy systems and driving cloud migration initiatives complements a proven ability to lead Agile teams and mentor emerging talent. Committed to implementing clean architecture principles and leveraging GIS technologies to enhance application functionality and user experience.

## EMPLOYMENT HISTORY
